

Mike and Debbie,

Below are updates on the CDPH plan for scanning Parcel A, the July 11 Congressional conference call, and the Parcel G Workplan:

1. **Scanning Parcel A residential areas:** On July 16, the California Department of Public Health (CDPH) will start radiation surveys of Parcel A-1, now occupied by residents. If levels of radiation are found greater than reference background, the CDPH will evaluate the likelihood that it may be naturally occurring, and the Navy will be on stand-by to remove soil, asphalt, or concrete for sampling. EPA and DTSC have given support to CDPH during this fast rollout. More details are on the attached table.
2. **July 11 Congressional Call:** EPA organized a meeting about Parcel A scanning with staff in the offices of Senators Feinstein and Harris and Congresswoman Pelosi. Attached is the list of principle participants.
 - Congressional staff asked about next steps after Parcel A scanning and encouraged future presentations to emphasize that more. Cong. Pelosi's District Director Dan Bernal had attended the July 5 Home Owners Association meeting and expressed appreciation for that outreach.
 - Robert Edmonson, Cong. Pelosi's Chief of Staff, recalled an earlier discussion about the Parcel G EPA/State proposal that the Navy excavate 33% of the soil trench units of greatest concern, and if any contamination was found, that would trigger excavation of 100% of survey units. He asked if the Navy's draft Parcel G workplan includes that. The Navy stated its plan is to review the data first and to take a phased approach.

3. **Parcel G Workplan**

In 2009, the Parcel G cleanup plan (Record of Decision, or "ROD") required 100% excavation of storm and sewer lines to ensure that no levels remained above the Remedial Goals. However, Tetra Tech EC Inc's potential falsification meant all data they collected is unreliable. In March 2018, EPA, the CA Department of Toxic Substances Control (DTSC), and the CA Department of Public Health (CDPH) gave the Navy its written recommendations for retesting Parcel G. On June 15, the Navy distributed to the public and agencies its draft Parcel G workplan for retesting. This draft did include the EPA/State recommendation to fully excavate and test 33% of soil trench survey units. However, it did not include the EPA/State recommendation that if any contamination is found above levels specified in the original 2009 ROD, then 100% excavation would be required, per the original ROD. This is an unexpected fundamental missing element. On July 13, Enrique discussed our concerns and next steps with his counterparts at DTSC and CDPH. On July 17, Angeles and her counterparts in these agencies are meeting with Navy middle management to discuss our concerns about the draft workplan.

Parcel A Timeline

Activity	To Whom	When	Action
Meeting/presentation	Home Owners Association (HOA)	July 5	Presented work plan and show instruments for the field work for Parcel A HOA
Workplan, Fact Sheet and Frequently Asked Questions (FAQs)	HOA, Public, Media	July 6	Published on CDPH webpage (Note: No official comment period, but comments will be considered.) (FAQs to be updated with new questions as they arise.)
Navy Public Workshop	Public	July 11	Navy-hosted meeting, CDPH staff attended
Media Outreach	Targeted outreach to specific media outlets	Ongoing	One on one Media interviews and/or media advisory, especially July 16, 2018, the first day of scanning, to facilitate filming of scanning
Parcel A-1 Field Work Starts	Parcel A-1	July 16, 4-6 week work period	Radiation surveys in public areas (Parcel A-1)
Information Table	HOA, Public, Media	July 16-20, longer if needed	Information booth on site
Weekly Progress Updates	Public	Ongoing	CDPH website every week starting on July 20, 2018
Meeting	HOA	Late July	Presentation/update
Parcel A-2 Field Work Starts	TBD	TBD	TBD
Final Report	HOA, Public, Media	Fall 2018	Report data analysis with GPS locations for release

Principle participants in Congressional call

- **Office of Cong. Pelosi:** Robert Edmonson, Chief of Staff; Dan Bernal, District Director
- **Office of Sen. Harris:** June Williams, District Director; Alexis Dye
- **Office of Sen. Feinstein:** Unable to participate
- **CDPH:** Dr. Mark Starr, Deputy Director for Environmental Health
- **CalEPA:** Christine Hironaka, Deputy Secretary for Legislative Affairs
- **CA DTSC:** David Johnson, Legislative Director
- **CA DHHS:** Kiyomi Burchill, Deputy Secretary for Legislative Affairs
- **Governors' Office:** Katy Brown, DC Representative
- **U.S. Navy Participants:** Laura Duchnak, Director, BRAC Program Management Office
- **U.S. EPA Participants:** Enrique Manzanilla, Superfund Division Director
